This revision includes administrative changes including class 1 modifications received and approved through the quarter ending September 30, 1997. These changes include modifications to the 616 Nonradioactive Dangerous Waste Storage Facility (NRDWSF) specific conditions (Part III, Chapter 1) and update the approvals transmitted in the Washington State Department of Ecology's (Ecology's) December 29, 1997, letter. A separate letter to further explain the updated class 1 modification approvals for the 616 NRDWSF is forthcoming. None of the changes made require public involvement; nevertheless, a copy of this revision will be added to the Administrative Record, which is available for public review.
